HASKELL'S TRIAL  
ON AT M'ALESTER

Governor of Oklahoma Is Charged With Fraud in Town Lots Sale.

McAlester, Okla., Sept. 26.—The trial of Charles N. Haskell, governor of Oklahoma, in what is known as the Muskogee town lot cases, was called before federal judge Marshall, of Salt Lake city, here today. In the indictment governor Haskell and five business men of Muskogee are charged with "conspiracy to defraud the government" in the disposal of about 600 townsite lots.

Judge Marshall denied a motion to withdraw the plea of not guilty and also denied a motion to remove the defendant setting up the recent decision of the United States circuit court of appeals in which counsel for defense declared they had established a clear limitation to the prosecution of the cases. The court refused to divide the blanket indictment against Haskell, W. C. Turner and Walter R. Eaton from the other three defendants. A motion for a continuance by the defense was also overruled.

DOUGLAS RECEIVES  
TUCSON COMMITTEE

Gives Them No Assurance That Southwestern Will Build to That City.

Despite the fact that Walter Douglas, vice president of the El Paso and Southwestern, granted a meeting and a hearing to the chamber of commerce at Tucson to hear what the city of Tucson had to offer about the road extending to or through that city, it is maintained at the general offices of the company at El Paso, that the extension has the same status that it had a month ago.

According to dispatches from Tucson and Bisbee regarding the meeting between Mr. Douglas and the committee of Tucson citizens, the members of that committee did the talking while Mr. Douglas listened and the committee returned to Tucson full of hope and hope.

At the general offices of the railroad it is stated that the news of the extension, should it be decided to extend, will come from New York. All the data relating to the cost of the extension, and the probable earnings has been gathered and submitted to the New York office.

It is believed that the committee of Tucson citizens put it, "We have told them what it would cost to build and what revenue the extension would bring in. It is their money and they will decide whether or not they will spend it."

Those who profess to have a knowledge of the situation, say that it has been decided to build, and that the question now is whether it will build to Tucson or down the San Pedro valley to Phoenix, with circumstances favoring the latter route. No definite information was given the Tucson committee by Mr. Douglas.

It is believed that definite information will be given out by the company just as soon as the route of the extension has been decided upon, and it is certain that nothing will be given out until it has been decided. The general manager of the Southwestern maintains that there is nothing doing.

## RAILROAD NEWS.

## AGAINST WHARF CHARGES.

The G. H. & M. A. and the Santa Fe, with other roads, have filed a protest with the state railroad commission against the Galveston Wharf company. The hearing will come up before the commission on September 26, when representatives of the roads interested will fight the proposed increase.

The present rate for handling cars at Galveston by the wharf company is \$1.75 for each loaded car. The wharf company has announced that on October 1 instead of charging a fixed rate for the handling of cars it will charge a proportionate rate of the through railroad rate, which would greatly increase the individual charges of the roads.

Schaeffer will be trainmaster at San Marcial.

## UNCLE TOM'S CABIN TROUPE PASSES THROUGH EL PASO

An "Uncle Tom's Cabin" show outfit passed through the city Monday morning, going north on the Santa Fe. The melderammer is never shown in the south and the presence of the show car at the union station excited no little attention, especially when the two bloodhounds which chase Eliza across the ice floes got into a scrap over a chunk of beef.

## OLD BESS MADE A KICK AGAINST SUNDAY WORK.

Resented Giving Joy Ride to Youthful Driver of the Ice Cream Wagon.

Working in the shafts of an ice cream wagon all week and furnishing a holiday method of locomotion for the driver was too much for the patient old mare which may be seen on the streets any day delivering ice cream from the Smith ice cream factory. Sunday afternoon Esprit d'Alvarez, age 12, who drives the cold stuff delivery after school week days and on Saturdays, took old Bess out for a Sunday afternoon ride.

When near the city rock quarry on Brown street the mare bucked and balked at the same time, pitching senior Alvarez into the cobblestones which had been hewn by the city chain gang Saturday. His scalp was cut and his shoulder bruised, but worst of all his feelings were hurt at old Bess's infidelity.

## DEL RIO POLITICIANS HOLD JOINT DEBATE

Republican and Democratic Candidates for Congress Meet on the Same Platform; Many Present.

Del Rio, Tex., Sept. 26.—The first political meeting of any importance that has been held in Del Rio in a long time was the joint debate between congressman John N. Garner of Uvalde, and judge Noah Allen, of Brownsville, candidates for congress for this district on the Democratic and Republican tickets, respectively. Over 500 people attended, a great many being women. Del Rio citizens were particularly interested in the charge made by Mr. Allen that Mr. Garner had been extravagant in public building authorizations, for it was understood that the Del Rio building, to cost \$30,000, was one of the buildings referred to by Mr. Allen. Judging from the lack of applause, the Republicans of this section did not turn out to hear their candidate in the numbers expected.
